

# SEEDS ANNUAL CONFERENCE 2025

**28-30 MAY, 2025**

VIA NIRONE 15 | UNIVERSITÀ CATTOLICA DEL SACRO CUORE

The SEEDS Annual Conference 2025, to be held from May 28 to 30 at Università Cattolica del Sacro Cuore in Milan, represents a key academic event in the field of environmental economics and sustainability studies.

The conference serves not only as an important venue for the dissemination of high-quality scientific research, but also as a vital occasion for intellectual exchange and networking among scholars engaged in the analysis of environmental issues and the wide-ranging impacts of human activities on global ecosystems.

By fostering dialogue on both the theoretical and practical dimensions of challenges such as climate change and the transition toward sustainable development models, the conference aims to contribute to the development of innovative and effective solutions to some of the most pressing and complex issues of our time.
